Short description

A webinar showcasing the results of the "Green Innovation Challenge", an educational programme for PhD/Master students from different backgrounds (architecture, botany, design, and business & economy) and countries (Italy, Spain, and Austria), developed within the Green Skills 4 Cities EU-funded project. Attendees will learn about innovation in research on Nature-Based Solutions through a series of real research projects and the work developed by the students within the Green Innovation Challenge.

Agenda

1. Welcome and introduction to the event and short presentation of Green Skills 4 Cities
2. Presentation of the STP "Green Innovation Challenge"
3. STP students' pitches
4. Panel discussion for Q&A
5. Plenary vote of the best STP project
6. Presentation of 3 NBS research projects
   a. ECOLOPES (UNIGE)
   b. MOSSKIN (UNIGE)
   c. Urban Shift (WU)
7. Panel discussion for Q&A

8. Survey on research project questions
9. General discussion highlighting project achievements and conclusions
